

Southern Missouri Home Builders Association and the Community:

The Southern Missouri Home Builders Association has been presenting the Annual Home & Garden Show at the Civic Center in West Plains to Southern Missouri and North Arkansas for 27 years.

The West Plains Home & Garden Show offers a number of things to the community: it is the largest annual “marketplace” for home and garden products and services in this area and it brings in merchants, vendors and potential customers from the area, the state and from outside our usual trade area.

It is also the major fundraising event of the SMHBA.

As such it has provided the funds that have made the many projects and charitable donations of the SMHBA possible over the years.

We appreciate the YOUR support for the Home & Garden Show and for our community projects!

Projects of the Southern Missouri Home Builders over the past 28 or so years:

West Plains Area Habitat for Humanity
South Central Career Center Building
